KISH ISLAND

The Pearl of the Persian Gulf

Kish Island is located in the Persian Gulf 19 km (12 mi) from mainland Iran and has an area of around 91km (35 sq mi) with an outer boundary of 40 km (25 mi) and a nearly elliptical shape. It is part of the Hormozgān Province of Iran. Kish Island has a unique situation in the strategic Persian Gulf region among tens of large and small islands.

Due to its free trade zone status it is touted as a consumer's paradise, with numerous malls, shopping centers, tourist attractions, and resort hotels that it has become known as the Pearl of the Persian Gulf since ancient times. It has an estimated population of 20,000 residents and about 1 million people visit the island annually. Kish Island was ranked among the world's 10 most beautiful islands by The New York Times in 2010, and is the fourth most visited vacation destination in Southwest Asia after Dubai, U.A.E, and Sharm el-Sheikh. Foreign nationals wishing to enter Kish Free Zone from legal ports are not required to obtain visas prior to travel. Valid travel permits are stamped for 14 days by airport and Kish port police officials.

Tourist Attractions

With a beautiful silvery beach, clear water, abundant date palms and acacin trees, Kish is a visual treat for everybody.

Water Sports: The water Sports Club began operation in 1997. It was a joint venture between the Institute for Promotion of Tourism and the private sector.

Kish Dolphin & Crocodile Park: The Dolphin Park is the unique ocean atrium in the Middle East, and visitors can enjoy spectacular dolphin and other sea mammal shows in a family-oriented atmosphere.

The Green Tree Park: The Park with the oldest trees on the island.

The Ancient Town of Harireh: The ruins display mortar masses and stone - made buildings in an area of some 3 by 1 kilometer long. The structures have been built of sand stones with some plaster layers on the walls. Some of the structures that they once used to contain many floors. The antiquity of Harireh town is estimated to be at 800 years illustrating the past flourishing economy of Kish island. It is also perceived that this town has most likely been destroyed when rocked by a powerful earthquake.

Scuba Diving: There are few dive schools and dive sites and also you can entertain yourself by other water sports

Greek Ship: The historic and famous old ship resting on one of the shores of Kish Island. It has become a major tourist attraction in recent years. Entry is free. It is a beautiful scenic area, and you can bring food for a picnic and sit in a shaded area

Underground Town of Cariz: Is more than 2,500 years old, and currently it has been converted into an underground town at a depth of 16 meters below the surface, with an area of more than 10,000 square miles.
